— Check if you can access your eVisa

Overview

An eVisa is an online record of:

- your immigration status
- the conditions of the type of permission you have to enter or stay in the UK

If you have access to an eVisa, you can prove your immigration status online instead of using a physical immigration document like a biometric residence

Scroll down and click the green icon 'Start now'

Before you start

You will need:

- access to a smartphone
- a mobile phone number
- an email address
- your BRP card or a valid passport with your BRP number or visa application number

Your visa application number is the global web form (GWF) or unique application number (UAN) from your visa application.

You must give a phone number and email address you can use again. You'll need them each time you use your eVisa to prove your immigration status online.
