

ITE Secondary Mentor Newsletter

St Mary's
University
Twickenham
London

School of
Education

Dear PCMs and Mentors,

We hope you are staying warm during the cold weather recently! This week's newsletter contains details of our trainees' focus for the week ahead and how mentors might support them. We have also included an update on the resources we offer our Partnership schools, which we hope will be of use to training coordinators, mentors and other staff in your school. Please do share the details below with those you feel would benefit from them.

Thank you for your ongoing support of St Mary's trainees. As ever, please do let us know if there is any other support we can provide for our school partners.

Best wishes,

The St Mary's Partnership Team

Week 3: 22nd to 26th January

Weekly theme: The focus for this week is adaptive practice and the ways in which teachers meet the needs of individual learners through their grouping of pupils to promote progress. As part of this focus, trainees should observe how learning is scaffolded, engaging with learning support systems in their setting and take on the role of TA for a day and fulfil a pupil pursuit to see how an individual pupil experiences school and how their needs are met throughout the day.

Research: The EEF '[Selecting Interventions](#)' evidence suggests that although high quality teaching may reduce the need for extra support for all pupils, some pupils will require additional support. Please support your trainees in discussing their practice in line with the guidance provided in this report and consider their deployment of other staff in light of its suggestions. This should form part of the weekly training meeting and trainees should be able to speak to this with confidence.

St Mary's Resources for Schools

Alongside training for our mentors, we are proud to support our partnership schools in developing their staff teams. Please find below details of some of the resources available to you:

The Professionals Podcast: Our repository of discussions with expert colleagues on a wide variety of topics, which includes prompts for running training in your schools or for personal reflection alongside resources for further thinking and engagement with the topic. This is an ever-growing library of content, and we hope you enjoy listening! [Find more here.](#)

CPD Library: Our selection of CPD offers expert colleagues the opportunity to tune into Themed Talk Times we host at the University, as well as accessing interesting research-informed articles that we share with trainees. Topics include safeguarding, artificial intelligence and the science of learning, with many more important topics being covered soon. [Please browse our collection here](#) and let us know if you would like to see coverage of particular content in the future!

Make it even better! Enhancing the partnership

Thank you for providing feedback on mentor workload and wellbeing. Based on responses:

- We would like to remind our PCMs to support mentors by protecting time for them to complete training and fulfil mentor responsibilities
- We would like to share the following [podcast episode](#) around 'Wellbeing and Workload'
- We have enabled an Abyasa function on the LFR to allow observers to **either** upload and/or type observation notes
